*Route to Organic Life*

Established in 2020, Spirooots is engaged in supplying premium quality cold-pressed edible oils. Our goal is to provide the home kitchen user with the very best quality edible oils for the day to day healthy cooking.

### SPECIFIC QUALITY RAW MATERIALS

**Raw Materials:** Our range of edible oils are carefully sourced and manufactured from the best quality seeds or nuts. The selection of raw materials is subject to strict quality measures and we choose the highest quality of seeds to offer the best aroma, taste and flavour.

### HYGIENIC & NATURAL WAY OF OIL EXTRACTION

**Processing:** Raw materials are dried in the sunlight and crushed in a wooden mortar. We refrain from using organic solvents in the manufacturing process and deliver fresh products as we start the preparation process only after receiving orders. We use traditional production methods, and the oil is filtered in natural sunlight for two days for the sediments to settle down. They are hand-picked and dispatched every day; fresh

from the oil mill. This means that the freshness, taste, aroma and nutrition is preserved. Our products are packed with all of its stupendous health endowments, flavours, richness, and purity intact so that our customers have a healthy lifestyle.

### DIRECT RETAIL & ONLINE PRESENCE

**Market:** Our cold-pressed oils are widely preferred in thousands of households because of the natural processing methods, rich taste and aroma. They are healthier than all other refined oils. Our products are available in many retail stores and can be ordered directly through our website, Amazon and Flipkart platforms too. We also export a wide range of agro products based on customer requirements. We deal in wholesale onion trading as well.

Oils to make the  
*"art of cooking"*  
healthier

Goodness  
of nature  
in every  
**DROP**

The current generation has become the victim of sedentary lifestyle. A healthy diet is not a choice any more but a necessity. Choosing the best edible oil that is pure, fresh, nutritious and flavourful is not easy. We produce healthy cooking oils in a hygienic atmosphere using finest quality vagai wood mortars (chekku). No chemicals are used in any part of the production system. Our cold-pressed and natural sunlight filtration methods make it a perfect oil for everyday healthy cooking requirements. We are dedicated to producing the highest quality products and putting an end to our customers' search for pure and healthy products.

#### Available Sizes

**Groundnut Oil:** Its mild and nutty flavour is retained even after cooking. This oil is high in monounsaturated fat, making it a popular choice for high-heat cooking. The high smoke point of this oil makes it ideal for stir-frying food at a high temperature. It is a good source of vitamin E and antioxidants, which offers many health benefits.

**Coconut Oil:** This oil is extracted from fungus-free and sodium-free coconuts. This is 100% natural and no chemicals are used. This can be used as a multi-purpose oil for cooking, frying, baking, roasting, drizzling and can be used in a number of beauty applications. This has a mild coconut aroma that won't overpower your cooking.

**Gingelly Oil:** Throughout history, sesame seed oil has been regarded as a food as well as medicine. This oil is made from naturally grown sesame seeds. So it imparts the food with an earthy flavour. This has a very high smoke point and is suitable for deep frying. Popularly used for oil pulling and massaging. Our oil is darker and so much more flavorful too.

**Natural Honey:** We extract multi-floral honey straight from the beehive and deliver it to you the way our honeybees created it - 100% raw and pure. It's that simple.

- 🌱 Cold press method. Oil is extracted at room temperature at around 27°C.
- 🌱 The final product is obtained after precipitation and natural filtration.
- 🌱 100% Natural. 100% Pure.

### WHY US?

- 🌱 High nutritional value, aroma & flavour of the seeds or nuts.
- 🌱 We use vagai wood chekku for oil extraction.
- 🌱 No use of solvents during oil extraction.

### HEALTH BENEFITS

- Rich in nutrients & vitamins
- Free from preservatives and chemicals
- Helps to maintain good metabolism
- Cold-pressed oils are of low cholesterol levels
- Retains antioxidants that help to boost the immune system

### Our Vision

To expand the distribution network and build a strong presence in national and international markets by 2030.

### Our Mission

- 🌱 We maintain consistent quality.
- 🌱 We maintain a long-lasting relationship with our suppliers and customers.
- 🌱 End to end streamlining of operations for better efficiency.
- 🌱 Developing a strong distribution channel.

### What We Believe?

We believe in building a happy and healthy customer base by offering pure and healthy agro products based on customer requirements.
