

Commitment To Quality

**Discover The Wonderful World of
Pet, Poultry, Cattle and Aqua Healthcare**

www.growelagroveter.com

Dear Friends,

Greetings from **Growel Agrovet Private Limited !**

We, **Growel Agrovet Private Limited** is specialized in developing, manufacturing, exporting & marketing premium quality of Pet, Poultry, Dairy Cattle, Aqua, Pig, Goat healthcare products & veterinary medicines for the optimum health, growth and productivity of animals and livestock. **Growel Agrovet Private Limited is simply giving a guarantee for the quality and result oriented animal healthcare products.**

Growel - A place where premium quality and great value go hand in hand. Every Growel product is carefully made to deliver exceptional quality. Right from the products we choose, to detailed quality checks, to thoughtful improvements, quality is at the core of everything we do.

We invest our resources only on what is important to you and minimize costs on things like advertising and promotional gimmicks that don't add value to product's quality. This helps us to produce premium quality products that deliver more value for the price you pay. Expect a little more every time you buy a Growel products.

Growel Agrovet Private Limited is managed by a group of top technocrats of India, who are not only believed to produce quality products for livestock and pets but also educating livestock and pet's owner, so we developed a very comprehensive website for livestock & pet owners. There are thousands of premium quality books, guides, articles and videos available on our website www.growelagrovet.com , which you can watch and download free of cost.

To get an idea about our product's quality please have a look of our product's compositions carefully and read customers testimonials and then finally test our products and judge it yourself. We are committed to quality across all its functions, continuously improving our standards and practices for the benefits of our customers.

Finally we are giving 100% guarantee of quality, performance & efficacy of our products. Due to quality & efficacy of veterinary products, Growel is trusted by millions of veterinarians, livestock owners, pet owners & veterinary product's distributors worldwide. Please once test our products and provide your feedback at our email address, info@growelagrovet.com

Wishing you all the best for a healthy, prosperous & profitable livestock & veterinary business & practice.

Thanking You ! 🙏

Growel Agrovet Private Limited.

Amino Power

Composition :

Each 100 ml contains

Vitamins:	Lysine	: 400 mg	Isoleucine	: 225 mg	
Vitamin A	: 80000 IU	Histidine	: 105 mg	Tyrosine	: 295 mg
Vitamin B ₁	: 250 mg	Arginine	: 156 mg	Phenylalanine	: 211 mg
Vitamin B ₂	: 25 mg	Aspartic Acid	: 805 mg	Tryptophan	: 55 mg
Vitamin B ₆	: 200 mg	Threonine	: 305 mg	Yeast Extract	: 500 mg
Vitamin B ₁₂	: 1.5 mcg	Serine	: 318 mg	Trace Minerals:	
Vitamin D ₃	: 5800 IU	Glutamic Acid	: 478 mg	Zinc Sulphate	: 120 mg
Vitamin E	: 375 mg	Proline	: 96 mg	Sodium Chloride	: 155 mg
Vitamin K	: 50 mg	Betaine	: 350 mg	Magnesium Sulphate	: 65 mg
Pantothenic Acid	: 150 mg	Glycine	: 712 mg	Manganese Sulphate	: 125 mg
Choline	: 50 mg	Peptides	: 200 mg	Sodium Bicarbonate	: 125 mg
Biotin	: 0.2 mg	Nucleotides	: 200 mg	Calcium Hypophosphate	: 40 mg
Folic Acid	: 0.2 mg	Alanine	: 235 mg	Copper Sulphate	: 150 mg
Niacinamide	: 250 mg	Cysteine	: 100 mg	Potassium Chloride	: 100 mg
Inositol	: 25 mg	Valine	: 215 mg	Selenium	: 50 mg
Amino Acids:	Leucine	: 356 mg	Sodium Citrate	: 100 mg	
Methionine	: 750 mg				

Benefits for Birds and Animals :

- A complete tonic with Vitamins, Amino Acids and Minerals for all species of birds, poultry, dairy cattle, pigs and goats
- To maintain metabolism and healthy body and balancing of vitamins, proteins, minerals and other nutrient deficiencies in poultry and cattle
- An instant energy booster after any stress and diseases which prevents early chicks and young animals mortality and infections
- It is a vital tonic that is quite helpful and a formula for instantly boosting overall health for sick birds and animals
- A super and powerful tonic for faster and healthier growth, disease resistance and immunity building in poultry and cattle
- For peak production, egg mass, body weight, fertility and to improve egg production in poultry
- It improves FCR and lowers feed cost, improves milk production and quality of milk
- A highly recommended bird's and animal's tonic by veterinarians worldwide

Dosage :

● Poultry (For 100 Birds)

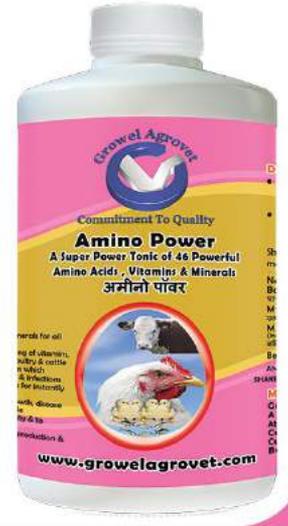

Broilers : 10-15 ml
Layers and Breeders : 15-20 ml

● Cattle :

Cow, Buffalo and Horse : 20 ml in the morning and evening.
Goat, Sheep, Calf and Pig: 10-15 ml in the morning and evening.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Grow B-Plex

Composition :

Each 10 ml contains

Vitamin B ₁	: 10 mg
Vitamin B ₂	: 3 mg
Vitamin B ₆	: 4 mg
Vitamin B ₁₂	: 5 mcg
Vitamin E	: 2.50 mg
Methionine	: 242 mg
Lysine	: 50 mg
Niacinamide	: 50 mg
Biotin	: 0.10 mg
Calcium Pantothenate	: 6 mg
Choline Chloride	: 54 mg
Iron	: 0.50 mg
Copper	: 0.150 mg
Cobalt	: 10.10 mcg
Manganese	: 0.450 mg
Iodine	: 0.52 mg

Dosage :

● Poultry (For 100 Birds)

Growers and Broilers : 10-15 ml daily.
Layers and Breeders : 15-20 ml daily.

● Cattle :

Cow, Buffalo and Horse : 50-60 ml daily.
Goat, Pig and Calf : 25-30 ml per day.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Prevents leg weakness, fatty liver syndrome and emaciation (loss of fat tissue) in poultry
- Improves growth and production and brings vitality back to animals and birds
- Prevents embryonal malformations and death of embryos in the shell
- Stimulates natural immunity and protects the liver & kidney
- Improves egg production, egg weight and egg quality
- Improves fertility and hatchability in a female breeder
- Improves poor feathering and nervous disorders
- Improves hatchability and reduces mortality
- Improves semen quality in a male breeder
- Improves carcass quality

Growvit Power

Composition :

Each 10 ml contains

Vitamin A	: 120000 IU
Vitamin D ₃	: 60000 IU
Vitamin E	: 500 mg
Vitamin B ₁₂	: 200 mcg
Selenium	: 100 ppm
Biotin	: 0.50 mg
Lysine	: 100 mg
Choline Chloride	: 100 mg
Methionine	: 100 mg

Dosage :

● Poultry (For 100 Birds)

Broilers : 10-15 ml

Layers and Breeders : 15-20 ml

● Cattle:

Cow , Buffalo and Horse : 20 ml daily in the morning and evening.

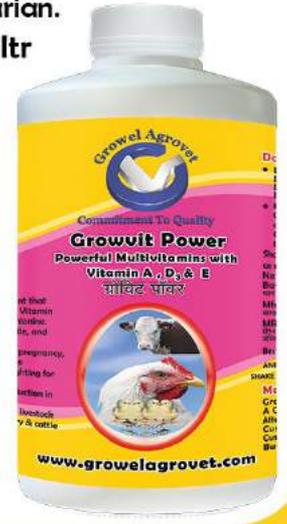

Goat , Sheep , Calf and Pig : 10-15 ml daily in the morning and evening.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- The most powerful multivitamins supplement that contains, Vitamin A, Vitamin D₃, Vitamin E, Vitamin B₁₂, Selenium, Biotin, Lysine, Choline and Methionine. These vitamins are essential for poultry, cattle, and other farm animals
- Maintains overall health, helps in a healthy pregnancy, improves fertility and milk production of cattle
- Should be given for immunity building and fighting for disease in poultry and cattle
- Helpful for hatchability, fertility and egg production in poultry
- Should be given during any kind of stress in livestock
- For weight gain and faster growth of poultry and cattle
- Beneficial in crazy chick's disease

Grow-Cal D₃

Composition :

Each 100 ml contains :

Organic Calcium	: 1700 mg
Vitamin D ₃	: 8,000 IU
Vitamin B ₁₂	: 100 mcg
Carbohydrate	: 400 mg
Phosphorus	: 850 mg
Zinc	: 90 mg
Magnesium	: 150 mg

Dosage :

● Poultry (For 100 Birds)

Broilers : 20 ml

Layers and Breeders : 30 to 40 ml

● Cattle :

Cow, Buffalo and Horse : 50 - 75 ml

Goat, Sheep, Calf and Pig: 25 - 30 ml

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- For stronger bones and to protect from bone-related diseases, e.g. Rickets in animals and birds
- Improves skeletal and muscular strength and prevents leg weaknesses in birds and animals
- Increases disease resistance, heals any cuts and wounds quickly in poultry and cattle
- Increases milk production, optimizes fat level in milk and prevents milk fever
- Helps to improve egg production, egg shell strength and overall quality of egg
- Improves overall growth and hatchability in broilers, breeders and layers

Growlive Forte

Composition :

Each 10 ml contains

Tricholine Citrate	: 1500 mg
Protein Hydrolysate	: 100 mg
Vitamin B ₁₂	: 4 mcg
Vitamin E	: 20 mg
Inositol	: 10 mg
Lysine	: 56 mg
DL Methionine	: 10 mg
Selenium	: 7 mcg
Biotin	: 0.5 mg
Ferrous Sulfate	: 30 mg

Base enriched with liver stimulants- q.s.

Dosage :

● Poultry (For 100 Birds)

Broilers : 10 ml

Layers and Breeders : 20-25 ml

● Cattle :

Cow, Buffalo and Horse : 50 ml each animal per day.

Calves, Sheep, Goat and Pig : 25-30 ml each animal per day.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Works as supportive therapy in hepatic dysfunction due to hepatic disease, i.e. Aflatoxins, Mycotoxins, Fatty Liver Syndrome. etc.
- A powerful cattle and poultry liver tonic for quick recovery of hepatic disorders and diseases
- For the treatment of liver dysfunction in poultry and cattle due to parasitic diseases
- Stimulates the function of kidneys in maintaining water salt equilibrium
- Improves cattle feed intake, milk production and milk fat percentage
- Improves poultry egg production, hatchability and weight gain
- Improves feed conversion ratio (FCR) in poultry and cattle
- Enhances growth and liveability in cattle and poultry
- Reduces incidence of Gout and Ascites in poultry
- Treats Diarrhea and Constipation in animals

Growvit - A

Composition :

Each 10 ml contains

Vitamin A : 500000 IU

Dosage :

● For Poultry : (For 100 Birds)

Broilers : 10-15 ml

Layers and Breeders : 15-20 ml

● Cattle :

Cow, Buffalo and Horse : 50-60 ml

Goat, Sheep, Pig and Calf : 25-30 ml

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Prevents and treats Vitamin A deficiency-related diseases, e.g. wheezing, sneezing, nostrils blocked, swollen eyes (sometimes with discharge) in birds
- Helpful in loss of appetite, diarrhea, weight loss, slimy mouth, tail bobbing, dullness of feather color, listlessness, depression in birds
- It is essential to ensure good growth, disease resistance and to improve fertility in birds and animals
- Treats disorders related to the reproductive, digestive, or respiratory system in birds and animals
- Treats skeletal malformations, retarded growth, reproductive failure in birds and animals
- It is necessary for the support of growth and good health of all animals and bird species
- An essential vitamin that helps to maintain the health of birds and animal's skin
- It prevents animals to abort or deliver weak new-born animals

Immune Booster

Composition :

Each 10 ml contains

Vitamin E	: 35 mg
Selenium	: 10 ppm
Glycine	: 100 mg
Amla	: 30 mg
Sodium Citrate	: 25 mg
Potassium Chloride	: 5 mg
Manganese Sulphate	: 7.5 mg
Zinc Sulphate	: 8 mg
Yeast Extract	: 35 mg
Vitamin B ₁₂	: 3 mcg

In a base fortified with immunoactive polysaccharides

Dosage :

● Poultry : (For 100 Birds)

Broilers : 10-15 ml

Layers and Breeders : 20-25 ml

● Cattle :

Cow, Buffalo and Horse : 25-30 ml in the morning and evening.

Goat, Sheep, Calf and Pig: 15-20 ml in the morning and evening.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- For building resistance power against diseases and stress in cattle and poultry
- For the treatment of anoestrus due to nutritional deficiency in farm animals
- Helpful in speedy recovery from viral infection in birds and animals
- For faster recovery after surgical operations in birds and animals
- To prevent clinical and subclinical infection in birds and animals
- For general health and productivity of birds and animals
- To increase conception rates after every AI in cattle
- For optimum follicular growth in cattle & poultry
- To prevent ketosis in high-yielding animals
- To combat lactation stress in cattle

Aquacure

Composition :

Each 100 ml contains :

BKC Solution (Benzalkonium Chloride I.P):	18% V/V
Citric Acid I.P	: 24% W/V
Inert Ingredients	qs

Dosage :

- For Water Sanitation : 1- 4 ml in 10 litre of water.
- For Egg, Drinker and Feeder Cleaning : 10 ml in 10 litre of water.
- For Disinfection and Descaling : 30-40 ml per litre of water.
- For Aqua Ponds: 500 ml for each 1 acre and water depth 1 to 1.5 meter.

It should be used regularly or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Removes all dirt deposits, keeps the water clean and makes the water safe and healthy for birds and animals
- Eliminates pathogens that cause diseases, i.e. bacteria, viruses, mycoplasma, fungi and protozoans
- Removes scales, minerals deposits and junk from waterpipes and lines
- Works with a broad spectrum of activities as a water sanitizer and ensures safety as it is non-corrosive
- Improves growth rate, feed conversion ratio, bird health and egg production
- It is highly effective against gram-positive and gram-negative bacteria
- Improves gut health and digestion of birds and animals
- Makes water at the optimum pH level

Growmin Forte Plus

Composition :

Each 500 ml contains

MHA	: 128 gm
Choline Chloride	: 64 gm
Lysine Hydro Chloride:	64 gm
Sodium	: 450 mg
Phosphorus	: 154 mg
Magnesium	: 595 mg
Zinc	: 216 mg
Ferrous (Iron)	: 223 mg
Copper	: 160 mg
Cobalt	: 206 mg
Manganese	: 385 mg

Dosage :

● Poultry : (100 Birds)

Broilers : 10 ml

Layers and Breeders : 20 ml

● Cattle :

Cow, Buffalo and Horse : 50-60 ml

Goat, Sheep and Pig : 25-30 ml

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Improves semen quality in male breeder and fertility in the female breeder of animals
- Regularizes reproductive cycle and increases conception rate in animals
- To overcome minerals and amino acid deficiency in birds and animals
- Improves egg production, egg and eggshell quality in layer poultry
- Enhances growth, hatchability and fertility in all species of birds
- Improves carcass quality in birds and animals

Growlive Care

Composition :

Each 10 ml contains

Vitamin B ₁	: 4 mg
Vitamin B ₁₂	: 3.5 mcg
Liver Extract	: 125 mg
Choline Chloride	: 300 mg
Niacin	: 30 mg
D - Panthenol	: 3 mg
Inositol	: 2.5 mg
Protein Hydrolysate	: 25 mg
Biotin	: 2.5 mcg
Lactobacillus Acidophilus:	2500 million CFU

Dosage :

● For Poultry : (For 100 Birds)

Broilers : 15-20 ml

Layers and Breeders : 20-25 ml

● For Cattle:

Cow, Buffalo and Horse : 50-60 ml

Goat, Sheep, Pig and Calf : 25-30 ml

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Provides additional nutrients in the form of Alfa Amylase, Papain, Protein Hydrolysate and Biotin to birds and animals
- Supportive medication for poultry and cattle in toxic conditions, fatty liver condition, and other hepatic disorders
- A regular liver tonic for birds and animals to use regularly to enhance liver and kidney functioning
- Protects liver from the effect of toxins in birds and animals
- Appetizer to stimulate feed intake in birds and animals
- Improves FCR and weight gain in poultry and cattle
- Helps in liver regeneration in poultry and cattle

Grow E - Sel Power

Composition :

Each 10 ml contains
 Vitamin E : 1000 mg
 Selenium : 12 mg
 Biotin : 1 mg
 Inert Carrier-q.s.

Dosage :

- **Poultry : (For 100 Birds)**
 Broilers : 10-15 ml with water
 Layers and Breeders : 15-20 ml with water
- **Cattle :**
 Cow, Buffalo and Horse : 15-20 ml in the morning and evening.
 Goat, Sheep, Calf and Pig: 10-15 ml in the morning and evening.

Should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- Helpful in immunity building and protecting against various viral diseases and coccidiosis in poultry
- Overcomes the stress of de-worming, vaccination and debeaking in poultry
- It treats Crazy Chick Disease, Exudative Diathesis and Muscular Dystrophy
- Reduces incidence of ascites and sudden death syndrome in poultry
- Improves hatchability and egg production of layer poultry
- Reduces leg weakness syndrome in poultry
- Improves weight gain and FCR in poultry
- Prevents dermatological diseases, rickets, osteomalacia, stunted growth and muscular dystrophy in cattle
- Prevents night blindness, xerophthalmia, and keratomalacia in cattle
- Improves milk quality and prevents white muscle disease in cattle
- Supportive therapy in milk fever and prolapse in cattle
- For faster growth and proper bone formation in cattle
- Vital for immunity and reproduction in cattle
- Prevents stiffness in lambs and calves

Respiratory Herbs

Composition :

Each 100 ml contains:
 Menthol : 8 gm
 Camphor : 0.6 gm
 Thyme Extract : 3 gm
 Ginger Oil : 0.6 gm
 Clove Oil : 0.8 gm
 Lemon Oil : 2 gm
 Sorbitol : 6 gm
 Adhatoda Vasica : 5 gm
 Eucalyptus Globulus : 20 gm

Dosage :

- **Poultry (For 100 Birds)**
 For Prevention: 1 ml in 1 litre of water from third day to seventh day.
 For Treatment: 5 ml in 1 litre of water for 7 to 10 days.
 - **Cattle :**
 Cow, Buffalo and Horse: 10-15 ml in the morning and 10-15 ml evening.
 Goat, Sheep, Calf and Pig: 5-10 ml in the morning and 5-10 ml evening.
- Should be given daily till recovery or as recommended by the veterinarian.

Packaging : 250 ml , 500 ml , 1 ltr , 5 ltr

Benefits for Birds and Animals :

- For prevention and treatment of Chronic Respiratory Disease (CRD) and associated symptoms viz cough, sneezing, nasal discharge, tracheal rales, gasping, unthriftiness etc
- Highly effective for the treatment of E. Coli, Coryza, Mycoplasma Gallisepticum, Salmonella, Wing Rot, Fowl Cholera, Dermatitis, White Diarrhoea etc

Viraclean

Composition :

Sodium Chloride	: 1.5% w/w
Salt containing Potassium Monopersulfate	
Potassium Hydrogen Sulphate / Potassium Sulphate	: 49.6% w/w
Buffer and Excipients	: q.s. to 100%

Dosage :

- **For Poultry and Cattle Farm :**
10 gm with 1 litre of water, spray it in and outside of the farm.
- **For Aqua Farm :**
500 gm per acre, for pond sanitization and disinfection.
- **For Feeder, Drinker and Equipment :**
10 gm with 1 litre of water.
- **For Residential and Commercial Premises :**
10 gm with 1 litre of water.

It should be used regularly or as recommended by the veterinarian

Packaging : 100 gm , 250 gm , 500 gm , 1 kg

Benefits for Aqua, Birds and Animals :

- Effective against viral and bacterial disease-causing organisms in poultry, cattle and aqua
- Useful for prevention of infectious diseases in poultry, cattle and aqua farm
- Broad-spectrum activity against bacteria (including pseudomonas)
- A complete "all-in-one" disinfectant for poultry, cattle and aqua
- For disinfection in the presence of birds and animals
- For disinfection of poultry and livestock equipment
- It is also used for the disinfection of residential and commercial premises

Gout Suraksha

Composition :

Each 100 gm contains

Potassium Citrate	: 18 gm
Sodium Citrate	: 15 gm
Vitamin B ₁	: 32 gm
Vitamin B ₂	: 0.18 gm
Vitamin K ₃	: 0.15 gm
Vitamin C	: 0.60 gm
Niacinamide	: 0.50 gm
Natural Immunostimulant Compound:	1.50 gm
Organic Q 5	

Dosage :

- **Poultry (For 100 Birds)**
5-10 gm with water.
- **Cattle:** 5 - 10 gm with water, for each animal.

Should be given daily till recovery or as recommended by the veterinarian.

Packaging : 100 gm , 250 gm , 500 gm

Benefits for Birds and Animals :

- Keeps the kidney healthy and works as a kidney flusher for poultry and cattle
- Prevents accumulation of uric acid in the body of poultry and cattle
- Prevents the formation of stones in birds and animal's kidneys
- For the treatment and prevention of Gout in birds and animals
- Prevents mortality of birds due to gout and kidney diseases
- Removes excess fluids from the body of poultry and cattle
- Prevents visceral and articular gout of poultry and cattle
- Helps in the excretion of uric acid in birds and animals

Electral Energy

Composition :

Each 100 gm contains

Sodium Chloride	: 1.5 gm
Potassium Chloride	: 5.0 gm
Glycine	: 3.5 gm
Manganese Sulphate	: 6.5 gm
Magnesium Sulphate	: 1.7 gm
Calcium Lactate	: 1.5 gm
Sodium Bicarbonate	: 1.0 gm
Sodium Citrate	: 2.5 gm
Vitamin C	: 1.2 gm
Calcium Hypophosphite	: 0.8 gm
Lactobacillus Acidophilus	: 2500 million CFU
In Instant Energy Base	: q.s.

Dosage :

● For Poultry :

Mix 500 gm to 1 kg per ton of feed
For 100 Birds, 5-10 gm with 2-4 liter of water

● For Cattle :

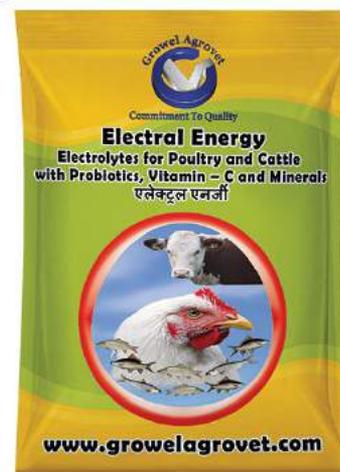

Mix 1 to 2 kg per ton of feed
Cow, Buffalo and Horse: 20-25 gm in the morning and evening
Goat, Sheep, Calf and Pig: 10-15 gm in the morning and evening

It should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 250 gm , 500 gm

Benefits for Birds and Animals :

- Electral Energy combats heat stress in birds and animals
- It prevents dehydration in birds and animals and must be given in diarrhea
- It improves immunity in birds and animals
- It enhances intestinal microflora depleted due to heat stress
- Electral Energy maintains a calcium-magnesium level essential for eggshell formation in birds
- It prevents bird's mortality due to heat and transportation stress
- Electral Energy provides instant energy to birds and animals after any stress
- It also helps to maintain the normal body function of birds and animals in summer
- Electral Energy fulfills the requirements and deficiency of Electrolytes, Probiotics, Minerals, and Vitamin C

Grow E-Sel

Composition :

Each 100 gm contains

Vitamin E	: 10 gm
Selenium	: 100 ppm
Biotin	: 10 mcg
Vitamin C	: 1 mg
Inert Carrier	-q.s.

Dosage :

● Poultry (For 100 Birds)

Broilers : 10-15 gm with water or 200 gm per ton of feed.

Layers and Breeders : 20-25 gm with water or 200-300 gm per ton of feed.

● Cattle :

Cow, Buffalo and Horse : 20-25 gm in the morning and evening.

Goat, Sheep, Calf and Pig: 15-20 gm in the morning and evening.

It should be given daily for 10 days, every month or as recommended by the veterinarian.

Packaging : 200 gm , 500 gm , 1 kg

Benefits for Birds and Animals :

- Helpful in immunity building & protecting against various viral diseases & coccidiosis in poultry
- Overcomes the stress of de-worming, vaccination, and debeaking in poultry
- It treats Crazy Chick Disease, Exudative Diathesis & Muscular Dystrophy
- Reduces incidence of ascites and sudden death syndrome in poultry
- Improves hatchability & egg production of layer poultry
- Reduces leg weakness syndrome in poultry
- Improves weight gain & FCR in poultry
- Prevents dermatological diseases, rickets, osteomalacia, stunted growth and muscular dystrophy in cattle
- Prevents night blindness, xerophthalmia and keratomalacia in cattle
- Improves milk quality and prevents white muscle disease in cattle
- Supportive therapy in milk fever and prolapse in cattle
- For faster growth and proper bone formation in cattle
- Vital for immunity & reproduction in cattle
- Prevents stiffness in lambs and calves

Amino Power - Feed Premix

Composition :

Each 100 gm contains

Vitamins:

Vitamin A	: 80000 IU
Vitamin B ₁	: 250 mg
Vitamin B ₂	: 25 mg
Vitamin B ₆	: 200 mg
Vitamin B ₁₂	: 1.5 mcg
Vitamin D ₃	: 5800 IU
Vitamin E	: 375 mg
Vitamin K	: 50 mg
Pantothenic Acid	: 150 mg
Choline	: 50 mg
Biotin	: 0.2 mg
Folic Acid	: 0.2 mg
Niacinamide	: 250 mg
Inositol	: 25 mg

Amino Acids:

Methionine : 750 mg

Lysine	: 400 mg	Isoleucine	: 225 mg
Histidine	: 105 mg	Tyrosine	: 295 mg
Arginine	: 156 mg	Phenylalanine	: 211 mg
Aspartic Acid	: 805 mg	Tryptophan	: 55 mg
Threonine	: 305 mg	Yeast Extract	: 500 mg
Serine	: 318 mg	Trace Minerals:	
Glutamic Acid	: 478 mg	Zinc Sulphate	: 120 mg
Proline	: 96 mg	Sodium Chloride	: 155 mg
Betaine	: 350 mg	Magnesium Sulphate	: 65 mg
Glycine	: 712 mg	Manganese Sulphate	: 125 mg
Peptides	: 200 mg	Sodium Bicarbonate	: 125 mg
Nucleotides	: 200 mg	Calcium Hypophosphate	: 40 mg
Alanine	: 235 mg	Copper Sulphate	: 150 mg
Cysteine	: 100 mg	Potassium Chloride	: 100 mg
Valine	: 215 mg	Selenium	: 50 mg
Leucine	: 356 mg	Sodium Citrate	: 100 mg

Dosage :

● For Poultry:

Mix 1 to 1.5 kg per ton of feed

● For Cattle:

Mix 2 to 3 kg per ton of feed

Cow, Buffalo and Horse: 50 gm daily

Goat, Sheep, Calf and Pig: 20-25 gm daily

● For Aqua:

Mix 2 to 3 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

- Amino Power is a complete feed additive with vitamins, amino acids and minerals for all species of aqua, birds, poultry, dairy cattle, pigs and goats
- Amino Power maintains metabolism and a healthy body and balances vitamins, proteins, minerals, and other nutrient deficiencies in aqua, poultry and cattle
- It is an instant energy booster after any stress and disease, which prevents early chicks and young animals mortality and infections
- Amino Power is a vital feed additive that is quite helpful and a formula for instantly boosting overall health for sick birds and animals
- Amino Power is a super and powerful feed additive for faster and healthier growth, disease resistance, and immunity building in aqua, poultry and cattle
- For peak production, egg mass, body weight, fertility and to improve egg production in poultry
- Amino Power is a highly recommended aqua, bird's and animal's feed additive by veterinarians worldwide
- An all in one feed premix for faster and healthy growth of aqua, poultry and cattle
- Amino Power- Feed Premix is equally beneficial for aqua, poultry and cattle

Grow B-Plex - Feed Premix

Composition :

Each 100 gm contains

Vitamin B ₁	: 100 mg
Vitamin B ₂	: 30 mg
Vitamin B ₆	: 40 mg
Vitamin B ₁₂	: 50 mcg
Vitamin E	: 25 mg
Methionine	: 2420 mg
Lysine	: 500 mg
Niacinamide	: 500 mg
Biotin	: 1 mg
Calcium Pantothenate	: 60 mg
Choline Chloride	: 540 mg
Iron	: 5 mg
Copper	: 1.5 mg
Cobalt	: 100 mcg
Manganese	: 4.5 mg
Iodine	: 5 mg
Magnesium	: 8 mg
Zinc	: 1 mg
Selenium	: 2 mg

Benefits for Aqua, Animals and Birds :

- Grow B - Plex is helpful in cattle and poultry bone development, immune function, muscle contraction, and nervous system function
- Grow B - Plex makes home-grown feed rich and balanced in vitamins and minerals, which is vital for birds and animals
- Grow B - Plex prevents leg weakness, fatty liver syndrome and emaciation (loss of fat tissue) in poultry
- It improves the growth, production and brings vitality back to aqua animals and birds
- Grow B - Plex prevents embryonal malformations and death of embryos in the shell
- It also stimulates natural immunity and protects the liver and kidney
- Grow B - Plex improves egg's production, weight and quality
- Grow B - Plex Feed Premix is equally beneficial for aqua, poultry and cattle

Dosage :

● For Poultry:

Mix 1 to 1.5 kg per ton of feed

● For Cattle:

Mix 2 to 3 kg per ton of feed

Cow, Buffalo and Horse: 50 gm daily

Goat, Sheep, Calf and Pig: 20-25 gm daily

● For Aqua:

Mix 2 to 3 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Growlive Forte - Feed Premix

Composition :

Each 1 kg contains

Choline Chloride	: 50 gm
Protein Hydrolysate	: 100 mg
Vitamin B ₁₂	: 80 mg
Vitamin E	: 8 mg
Inositol	: 1 gm
Lysine	: 4 gm
D.L. Methionine	: 4 gm
Selenium	: 7 mcg
Biotin	: 4 mg
Ferrous Sulfate	: 8 gm
Fortified with Liver Extract:	4 gm

Dosage :

- **For Poultry:**
Mix 1 to 1.5 kg per ton of feed
- **For Cattle:**
Mix 2 to 3 kg per ton of feed
Cow, Buffalo and Horse: 50 gm daily
Goat, Sheep, Calf and Pig: 20-25 gm daily
- **For Aqua:**
Mix 2 to 3 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

- Growlive Forte is a powerful aqua, cattle and poultry liver stimulant, feed additive for quick recovery of hepatic disorders and diseases
- Growlive Forte works as supportive therapy in hepatic dysfunction due to hepatic disease, i.e., Aflatoxins, Mycotoxins, Fatty Liver Syndrome. etc
- Growlive Forte is a powerful liver stimulants premix for home-grown feed, which is vital for birds and animals
- It can be used for the treatment of liver dysfunction in aqua, cattle and poultry due to parasitic diseases
- It stimulates the function of kidneys in maintaining water salt equilibrium
- It enhances growth and outstanding digestibility in aqua, cattle and poultry
- It improves cattle feed intake, milk production and milk fat percentage
- It improves poultry egg production, hatchability and weight gain
- Growlive Forte enhances feed conversion ratio (FCR) in aqua, cattle and poultry
- It treats diarrhoea or constipation in cattle and poultry
- Growlive Forte reduces the incidence of Gout and Ascites in poultry
- Growlive Forte - Feed Premix is equally beneficial for aqua, poultry and cattle

Growvit Power - Feed Premix

Composition :

Each 500 gm contains

Vitamin A	: 1,25,00,000 IU
Vitamin D ₃	: 25,00,000 IU
Vitamin B ₂	: 5000 mg
Vitamin E	: 9000 IU
Vitamin K ₃	: 1200 mg
Vitamin B ₁	: 900 mg
Vitamin B ₆	: 1800 mg
Vitamin B ₁₂	: 2500 mcg
Niacin	: 14000 mg
Folic Acid	: 100 mg
Biotin	: 10000 mcg
Calcium Pantothenate	: 9000 mg
Yeast Extract	: 260000 CFU
Sorbitol	: 10000 mg
Organic Nutritive Career:	q.s

Dosage :

- **For Poultry:**
Mix 500 gm to 1 kg per ton of feed
It should be used regularly or as recommended by the veterinarian.

Packaging : 500 gm , 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Broilers, Breeders and Layers :

- Growvit Power is the most powerful vitamins premix, containing Vitamin-A, Vitamin-D₃, Vitamin-E, Vitamin-K, Vitamin-B, Niacin, Biotin, Folic Acid, Biotin, Calcium Pantothenate, Sorbitol and Yeast Extract
- Helpful in better egg production, eggshell thickness, egg yolk colour and overall quality of egg
- Growvit Power improves the efficiency of commercial poultry feed and fulfils vitamins deficiency in birds
- It improves immunity in birds, resistance to fight against diseases and overcome stress
- Growvit Power makes home-grown feed vitamins enriched and balanced, which is vital for birds
- It supports physiological functions of the body after parasitic or infectious diseases
- Growvit Power improves feed conversion, weight gain and reduces mortality in birds
- It is also helpful for maintaining the performance and immune function of stressed birds
- Growvit Power is beneficial for better health, growth and reproduction in layer, broiler and breeder
- Useful in proper absorption and utilization of calcium and phosphorous
- It plays an essential role in the metabolism and prevention of leg weakness
- Growvit Power - Feed Premix is equally beneficial and can be used for cattle and aqua

Growel Toxin Binder

Composition :

Each 1 kg contains

Charcoal	: 8 gm
Formic Acid	: 6 gm
Acetic Acid	: 6 gm
Propionic Acid	: 8 gm
Citric Acid	: 6 gm
Yeast Cell Walls	: 2500 mg
Turmeric	: 1500 mg
Copper	: 20 gm
Lactic Acid	: 400 gm

Dosage :

- **For Poultry:**
Mix 1 to 1.5 kg per ton of feed
- **For Cattle:**
Mix 1 to 1.5 kg per ton of feed
- **For Aqua:**
Mix 1 to 2 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

- Growel Toxin Binder absorbs a wide range of harmful mycotoxins from feed, e.g., aflatoxins, ochratoxins, trichothecenes, deoxynivalenol and zearalenone in various pH conditions
- Growel Toxin Binder reduces the accumulation of bacteria, yeasts, and fungi in feed, keeping feed healthy
- It traps mycotoxins in feed and prevents them from entering the bloodstream of birds and animals
- Binds excess moisture in feed and prevents feed from caking
- It does not bind nutrients like vitamins, minerals and other nutrients
- It is fortified with organic acids, so it acts as a good feed acidifier
- As a feed acidifier it plays an important role in gut health in animals
- It improves the digestibility of nutrients and increases the absorption of minerals
- Growel Toxin Binder improves FCR, weight gain and egg production in layers and broilers
- Protects liver and boosts the immune response of aqua, poultry and cattle
- Growel Toxin Binder is equally beneficial for aqua, poultry and cattle

Grow-Cal D₃ - Feed Premix

Composition :

Each 1 kg contains

Calcium	: 320 gm
Phosphorous	: 60 gm
Vitamin - E	: 500 mg
Copper	: 500 mg
Cobalt	: 60 mg
Selenium	: 0.4 mg
Magnesium	: 1200 mg
Iron	: 1500 mg
Zinc	: 2150 mg
Iodine	: 260 mg
DL-Methionine	: 1500 mg
L-Lysine	: 2400 mg

Dosage :

- **For Poultry:**
Mix 1 to 1.5 kg per ton of feed
- **For Cattle:**
Mix 2 to 3 kg per ton of feed
Cow, Buffalo and Horse: 50 gm daily
Goat, Sheep, Calf and Pig: 20-25 gm daily
- **For Aqua:**
Mix 2 to 3 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

- Grow - Cal D₃ is helpful for stronger bones and protects against bone-related diseases such as rickets in animals and birds
- It makes home-grown feed calcium and minerals enriched, which is vital for aqua, poultry and cattle
- Grow - Cal D₃ improves skeletal and muscular strength and prevents leg weaknesses in birds and animals
- It increases disease resistance, heals any cuts and wounds quickly in poultry and cattle
- Grow - Cal D₃ increases milk production and optimizes fat level in milk and prevents milk fever
- Grow - Cal D₃ helps to improve egg production, eggshell strength and overall quality of egg
- Improves overall growth and hatchability in broilers, breeders and layers
- Grow - Cal D₃ is equally beneficial for aqua, poultry and cattle

Growel Trace Minerals

Composition :

Each 1 kg contains

Manganese Sulphate:	120 gm
Zinc Sulphate	: 120 gm
Ferrous Sulphate	: 20 gm
Copper Sulphate	: 4000 mg
Cobalt Chloride	: 200 mg
Potassium Iodide	: 200 mg
Sodium Selenite	: 40 mg

Dosage :

- **For Poultry:**
Mix 1 to 1.5 kg per ton of feed
 - **For Cattle:**
Mix 1.5 to 2 kg per ton of feed
Cow, Buffalo and Horse: 50 gm daily
Goat, Sheep, Calf and Pig: 20-25 gm daily
 - **For Aqua:**
Mix 1.5 to 2 kg per ton of feed
- It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

- Growel Trace Minerals help to improve growth rate, egg production, quality of egg, FCR and hatchability in poultry
- Improve fertility, immunity, diseases resistance and reduce mortality in poultry
- Growel Trace Minerals is a blend of Zinc, Copper, and Manganese which develops the essential tissues and helpful for boosting overall health and productivity of laying hens
- Growel Trace Minerals play an essential role in various metabolic, enzymatic, and biochemical reactions in poultry, which helps for better egg and meat production
- Growel Trace Minerals should be added to cattle and poultry feed regularly for better health and production
- Growel Trace Minerals improve fertility and semen quality of cattle
- Growel Trace Minerals are equally beneficial for aqua, poultry and cattle

Immune Booster - Feed Premix

Composition :

Each 10 gm contains

Vitamin E	: 35 mg	Potassium Chloride	: 5 mg
Selenium	: 10 ppm	Manganese Sulphate:	7.5 mg
Glycine	: 100 mg	Zinc Sulphate	: 8 mg
Amla	: 30 mg	Yeast Extract	: 35 mg
Sodium Citrate:	25 mg	Vitamin B ₁₂	: 3 mcg

In a base fortified with immunoactive polysaccharides

Dosage :

- **For Poultry :**
Mix 1 to 2 kg per ton of feed
 - **For Cattle :**
Mix 2 to 3 kg per ton of feed
Cow, Buffalo and Horse: 50 gm daily
Goat, Sheep, Calf and Pig: 20-25 gm daily
 - **For Aqua :**
Mix 2 to 3 kg per ton of feed
- It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

Benefits for Aqua, Animals and Birds :

Aqua :

- For building resistance power against diseases and stress of fish & prawn
- To help in speedy recovery from a viral infection of fish & prawn
- To prevent clinical and sub-clinical infection of fish & prawn
- For general health and productivity of fish & prawn
- For better weight & growth of fish & prawn

Animals :

- Builds resistance power against diseases and stress in cattle
- Treats anoestrus due to nutritional deficiency in farm animals
- Aiding in the recovery after surgical operations of cattle
- It prevents clinical and sub-clinical infection in cattle
- It increases conception rates after every AI in cattle
- It helps speedy recovery from viral infection
- Helpful in optimum follicular growth in cattle
- It improves the health and productivity of cattle
- For better weight & development of the animal
- It combats the lactation stress of cattle

Poultry :

- Making resistance power against diseases and stress in poultry
- For general health and better productivity of poultry
- Making feed more nutritious and adding minerals
- For better weight & growth of birds

Chelated Growmin Forte - Feed Premix

Composition :

Each 1 kg contains

Vitamin A : 8,00,000 IU	Magnesium : 6500 mg
Vitamin D ₃ : 80,000 IU	Manganese : 2000 mg
Vitamin E : 400 mg	Potassium : 150 mg
Nicotinamide: 1200 mg	Sodium : 10 mg
Cobalt : 200 mg	Zinc : 10000 mg
Copper : 1500 mg	Sulphur : 1%
Iodine : 500 mg	Calcium : 32%
Iron : 2000 mg	Phosphorus : 15%

Benefits for Aqa, Animals and Birds :

Aqua:

- Chelated Growmin Forte is vital for better and healthy growth of fish and prawns
- Chelated Growmin Forte protects fish and prawns from mineral and vitamin deficiencies
- Chelated Growmin Forte helps to develop an immune response and defence mechanism for fish and prawns
- It optimizes FCR and maximizes the productivity of fish and prawns
- Helpful for better digestibility and disease resistance in fish and prawns
- Enriches pond water by developing plankton
- Chelated Growmin Forte provides quality broodstock development
- It is a time-tested fish and prawns growth promoter worldwide

Cattle:

- It keeps cattle healthy and improves the carcass quality of animals
- Improves fat percentage in the milk of cow, buffalo, and goat
- It overcomes vitamins and minerals deficiency in cattle
- Enhances fertility in male and female breeders of cattle
- Improves growth rates of cattle

Poultry:

- It overcomes vitamins and minerals deficiency of poultry
- It improves egg production, fertility and hatchability
- It makes poultry feed more nutritious and powerful
- It enhances the growth rate of poultry

Dosage :

● For Cattle:

Mix 2 to 3 kg per ton of feed
Cow, Buffalo and Horse: 50 gm daily
Goat, Sheep, Calf and Pig: 20-25 gm daily

● For Aqua:

Mix 2 to 3 kg per ton of feed

● For Poultry:

Mix 1 to 2 kg per ton of feed

It should be used regularly or as recommended by the veterinarian.

Packaging : 1 kg , 5 kg , 10 kg , 25 kg

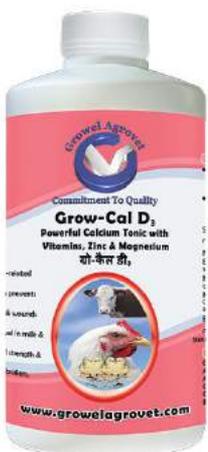

Growel's Unique Milk Boosting Formula

Increases milk output and milk quality of cows, buffaloes & goats by a minimum of 0.5 Litre to 1 Litre in the morning & evening sessions. Moreover, there are many additional benefits to all the livestock, including cows/buffaloes/goats, which are mentioned below:

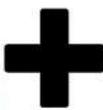

- Maintains the overall health of animals.
- Improves skeletal and muscular strength.
- Helps in healthy pregnancy and improved fertility.
- Prevents milk fever, rickets and optimizes fat level in milk.
- Increases disease resistance and heals any wounds or cuts faster.

Formula Dosage:

Make a mixture of 1 Ltr. Grow Cal D-3 & 100 ml Growvit Power and Feed 100 ml mixture to Cows, Buffaloes & Goats every morning for the next eleven days. You will see the difference from fourth day onwards.

Grow Cal D3 - 1 Ltr.

Growvit Power - 100 ml.

Milk Booster

Growlive Forte - 500 ml.

Note: For best results and overall health growth, please feed Growlive Forte for a week before feeding Growel Milk Booster.

Growel's Medicine Schedule Chart for Broiler Poultry

1. **Viraclean:** The shed should be cleaned three days before birds come, and Viraclean should be regularly sprayed inside and outside the shed for three days. All feeders, drinkers & equipment should be washed with Viraclean solutions twenty-four (24) hours before the birds reach the farm. Once birds reach the shed, Viraclean should be sprayed regularly inside and outside the shed three times a week.
2. **Aquacure:** Aquacure should be mixed regularly with drinking water. Medicines should also be given with Aquacure treated water.
3. **Electral Energy:** After birds reach the farm, Electral Energy must be given on the first day and the second day in the morning. In summer or during any kind of stress, it should be given regularly.
4. **Respiratory Herbs:** Respiratory herbs should be given as a preventive dosage from the third day to the sixth day. The preventive dosages of Respiratory Herbs should be one ml. for 100 birds. Under the condition of CRD and E-Coli, the dosages should be 5-10 ml. for every 100 birds till recovery.
5. **Amino Power:** Amino Power should be given from the first day to the twelfth day. From the first day to the sixth day in the evening and from the seventh day to the twelfth day in the morning. For faster growth and better immunity, Amino Power should be given regularly.
6. **Grow B-Plex:** Grow B-Plex should be given from the thirteenth day to the eighteenth day in the morning.
7. **Growlive Forte:** Growlive Forte should be given from the nineteenth day to the twenty-fifth day in the morning.
8. **Grow Cal -D3:** Grow Cal-D3 should be given from the twenty-sixth day to thirty- second day in the morning.
9. **Grow E- Sel:** Grow E-Sel should be given from thirty- third day to the fortieth day in the morning.

Special Notes:

- This medicine schedule is for around forty to forty-five days (40-45) for broiler farming. The medicine's schedule can differ from one to three (1-3) days. Kuroiler and other breeds of birds should follow the exact schedule; only the dosages should be stretched, accordingly total no. of rearing days. For example, suppose that if you are rearing Kuroiler birds for eighty days, then the medicine you give to the broiler for 12 days should be given 24 days.
- For best results, Growel medicine should be given from day one. Medicine should be given preferably in the morning.
- If same day two medicines are given, then one medicine should be given in the morning and one in the evening.
- The water should be mixed with medicines so much that all water mixed medicines should be consumed at the earliest possible time, approximately within 2-3 hours.
- Always take care that medicines should not be wasted or left in a drinker or feeder. First, shake well all liquid medicines before every use, then mix the medicines properly with feed or water.

Benefits of following Growel' Medicine Schedule Chart:

- Each bird's extra weight gains of 200 gm. to 300 gm. over and above the current weight you are getting.
- Better immunity, least fear of diseases outbreaks, least or no mortality.
- 25% better FCR.

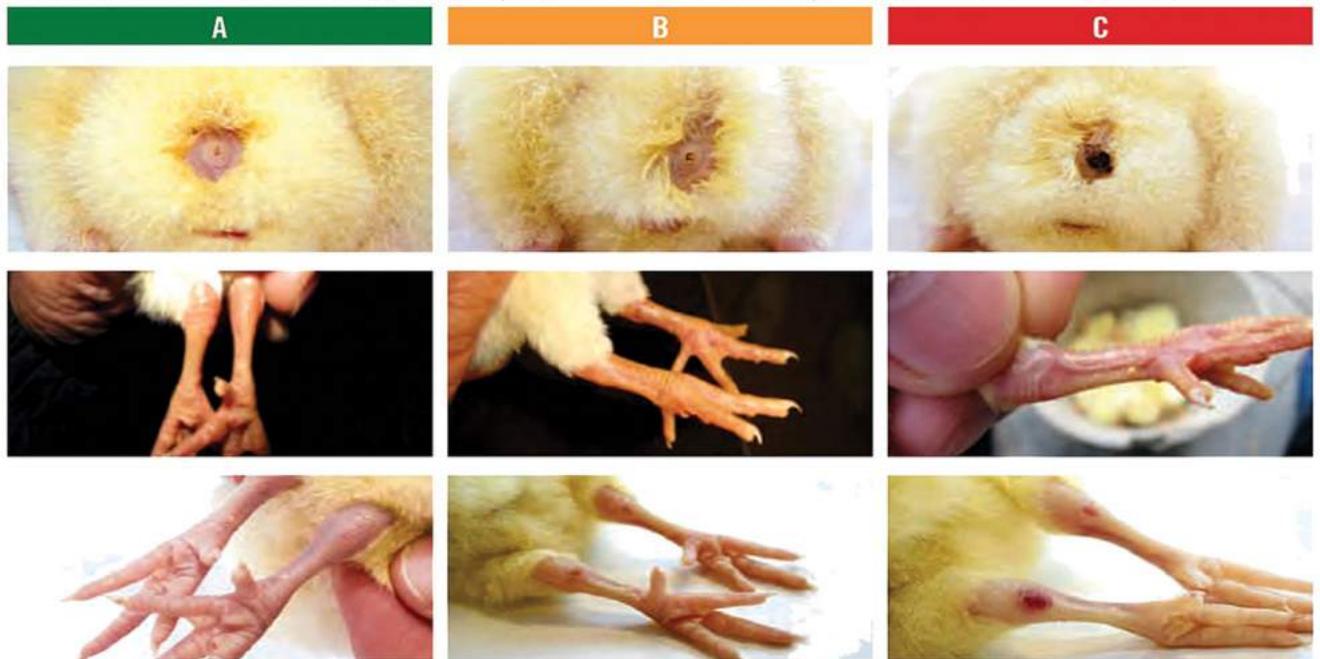

Chicks Quality and Chicks Placement In the Poultry Farm for Profitable Poultry Farming:

Hatcheries can have a tremendous impact on the success of broiler rearing. The hatching process from egg to farm can be stressful. Efforts to minimize stress are fundamental to maintain proper chick welfare and good chick quality. Evaluate chick behavior, appearance, and activity in the hatchery and at placement

Characteristics of Good Quality Chicks:

- Well-dried, long-fluffed down. Bright, round, active eyes. Look active and alert.
- They should have completely healed navels. Legs should be bright and waxy to the touch.
- Free of red hocks and free of injuries. Chicks should be free from deformities (i.e., deformed legs, twisted necks, and cross beaks).
- Average day old chick uniformity of 7.88 CV.

Ideal chicks should look like the following image (bright, alert, and active) with good color and quality attributes.

Characteristic	A Excellent	B Acceptable	C Cull
1. Reflex	Chick can flip over within 3 seconds	Chick flips back over between 4-10 seconds	Over 10 seconds or fails to flip over
2. Navel	Clean and well healed	Closed but slight abrasiveness	Not closed/string/button attached or discolored
3. Legs	Clean, waxy legs	Some dryness/pale	Dehydrated with vein protruding
4. Hocks	Clean, no blemishes	Slight blushing	Red color/heavy blushing
5. Defects	Clean, no defects	Minor defects (ex: yolk staining, feather coloration, etc.)	Missing eye/blind, legs with cuts/abrasions, spraddled legs, cross beaks, poor feathering, clubbed down

Apart from the quality of chicks, the proper placement of chicks on the farm also affects the broiler production's overall quality. Therefore, while the placement of the chicks on the farm, the farmers should note the following points :

- Place chicks from similar age and flock sources in a single house (a maximum of 5 weeks' difference is recommended if you need to mix donor flocks).
- Placement per farm should ensure an 'all-in-all out' regime.
- Delays in placement can contribute to the dehydration of chicks, resulting in higher chick mortality and a reduced growth rate.
- Transportation must provide ideal conditions for the chicks, and the delivery time should be as short as possible.
- Reduce the light intensity during chick placement to minimize stress and to keep chicks calm until placement is complete in the house.
- Chicks must be carefully placed and evenly distributed near feed and water throughout the brooding area. When using supplemental paper feeding, place chicks on the paper.
- Weight 5% of the boxes to determine day-old chick weight.
- Lights should be brought to full intensity (minimum 25 lux) within the brooding area once all chicks have been placed.
- Follow a 1-2 hour acclimation period, check all systems, and make adjustments if necessary.
- Monitor the distribution of the chicks closely during the first few days. This can be used to indicate any problems in feeder, drinker, ventilation, or heating systems.

Why Should You Choose Growel Agrovet?

We could define our **TOTEM** in two words the spirit and DNA of the company; **"Commitment To Quality."**

We focus on world-class and uncompromising quality that match the highest industry standard.

All in One: We have developed our products in such a way that our one product can be used for various birds/animals and multipurpose.

Growel Agrovet has been spreading the joy of healthy and profitable livestock farming in millions of farms across the Globe through its unbeatable and result-oriented products.

To ensure the best use of the product, please read the product's label carefully. Furthermore, you should visit our website regularly; our website is one of the most comprehensive websites of livestock farming. You will get lots of books, literature, videos and new updates to make your livestock farming more profitable and yourself more prosperous.

Thanking You ! 🙏
