

HYDRAULIC ROLL PRESSING MACHINE

**Horizontal
Roll Pressing Machine**

SALIENT FEATURES

- ◆ Industrial Heavy duty Hydraulic Cylinders is used.
- ◆ Easy to set hydraulic pressure based on washer quality & roll height.
- ◆ High Quality Pressure Gauge for accurate pressure setting.
- ◆ Standard make heavy duty Pressure valve.
- ◆ Robust Body Steel Structure.
- ◆ Easy to Handle.
- ◆ Easy to use even by unskilled labour available in ginning unit.
- ◆ Stand alone power pack having all hydraulic setup within it.

Vertical Roll Press Machine

TECHNICAL SPECIFICATIONS

- ◆ Machining Type : Suitable for all BAJAJ Ginning Machines Roll Pressing.
- ◆ Total Requirement of Power : 3HP
- ◆ Quantity of Hydraulic Oil : 30 Ltrs. (HLP 68)
- ◆ Number of Persons required : Two (2)
- ◆ Total Required Pressure to Increase life of the knives : 180 bar
- ◆ Time of Pressing : Seven (7) Minutes.
(Less than manual operation)
- ◆ Material used : High Grade Alloy Steel
