

# ECO-DROPS SPRAY OIL

## 1. NATURAL AND SAFE:

·The product is non-toxic and safe for use on edible crops. It does not leave harmful residues, making it a preferred choice for organic and sustainable gardening practices.

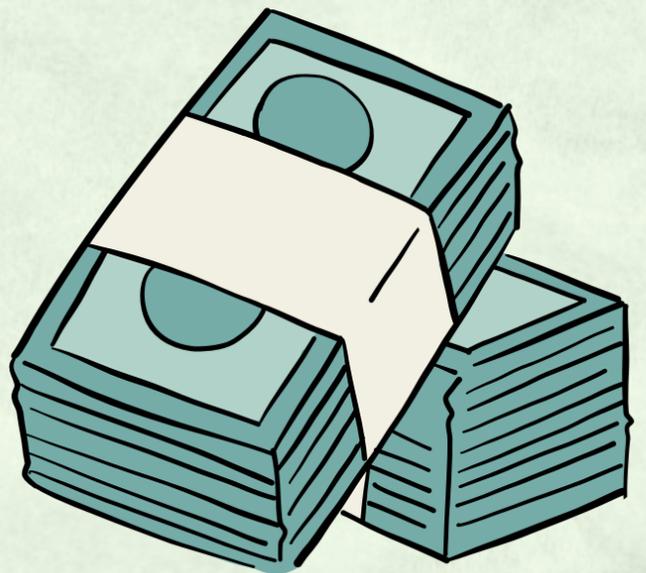

## 1. EFFECTIVE AGAINST MULTIPLE PESTS:

·Mineral oil is effective in controlling a wide range of pests, including aphids, mites, whiteflies, scale insects, and other soft-bodied insects. It can also help prevent fungal infections by creating a protective barrier on plant surfaces.

## COST-EFFECTIVE

·Suitable for use on a variety of fruit and vegetable crops, including tomatoes, cucumbers, peppers, apples, pears, and berries. It can be used throughout the growing season, including during dormant periods to control overwintering pests.

## MINERAL OIL

·This is a highly refined, purified oil that is safe for use on plants. It works by smothering pests and their eggs, disrupting their life cycle without the use of toxic chemicals.
