SAMCO ALLOYS, a Well known and reputed Steel Foundry based out of India, and catering to the needs of the steel casting users Globally.

To start with strategically the Foundry has been servicing Various Steel Casting Users from inception since 1977, and with more than 40 years of proven and exceptional track record, is looking for expansion / growth plans. We are planning to increase our capacity from current levels of 5000 Tons to 10000 Tons, and planning to establish the supply chain by means of providing machined castings at economical prices and lead time from India to the various destinations of various global brands. We are also planning to establish SAMCO as a " One Stop" for all Steel Castings User in extending the capability to offer products other than machining with extended requirements inclusive of cladding, phosphating & painting as a turn key contract manufacture through subcontract route in the Foundry Industry.

The Current resources are well experienced and has sound knowledge with respect to Foundry process & machining and in respect to meeting with customer requirements and End customer contractual requirements. The Foundry has been accredited with all relevant certifications that are required for servicing the Steel Casting User Industry like ISO 9001, 14001, AD 2000 Merklabat, PED Certifications for all major grades in ASTM and EN Equivalents, API 20A compliance and also has been approved for manufacture of Duplex steel castings meant for NORSOK requirements.

We are planning for Marine Certification for the Foundry, through DNV-GL, and working with a consultant for API 20A Monogram, and the In-house Lab is working on the requirements for getting " ISO 17025 " accreditation. The above listed activities are being planned for accreditation before End of Jun / Jul'23.

SAMCO is unique to the fact to address the challenge in the Steel/Foundry industry with respect to lead time and offers reliable lead times which is one of the primary strength to selective customer base and at a cost competitive with respect to Global competition.
