

Belt Weigher System

We are leading Manufacturer of all type of Weighing System which also includes Belt Weighing System, Check Weigher with live weight, per hr flow, totaliser since 2000.

Features:

1. Single or multi-idler weighing system for installation on flat or inclined belt conveyor up to 2m wide.
2. Comprises indicator, up to 3 idler frames, speed transmitter, junction boxes and cabling

Specifications :

Capacity	100 to 5000 TPH
Display Type	7 Segment
Frequency	50/60 Hzs
Voltage	24v DC, 110v AC, 230v AC
Accuracy	+/- 0.5 %
Material	Stainless Steel / Tool Steel
Usage	Industrial

Specifications are subject to change for improvements without prior notice.

Applications:

1. Stone Crusher
2. Coal Handling / Mines
3. RMC Plant
4. Boiler Applications
5. Foundries
